1. A new me is you. Or is you a new me us that one is coming now to be made whole; in the atonement, not; but who is "atoning" FOR me, not; but who is me atoning for each other, insinuation not made or made correctly?

2. This is Theodore Cottingham at 2:51 PM December 15, 2008 as I leave Sheridan driving the van.

3. I am coming unto me status, that has never been ME'D like this. In school. Not of another school or another's school but I *am* the school, I am school, and I am schooling I am to be whole healed and well. With the words of another not welling my soul to be well'd up with me and giving me its words that take me others and "a far crowd" along with me to the death grave'd camps. That encamp me, not shall be now.
4. I for sale, not; but I forego many things that I used to "enjoy" or think that I enjoyed them, or enjoyed thinking about them because I was told that thinking about them brought misery and pain, not; but agony of expression, not; but expressionless being mostly as I sat there. And contemplated my naval, not; naval forces, not; but what do I "collect" now, not; but what do I enforce, not; but *what do I bring forth in the reign of me*, that stupid isn't or solaced by another whose words gave thee or me words of another world that worlded me with their fantasies. Clubs not do that again.

5. I give you me unappraised, not; but praisefull shall be my lips now praising thee for all who see me see you for we are one that became one most high holy. Green light-d and looking that up, shall we? And no "red lights" on my grave again, not; for no one shall be STOPPING at my grave site again, for I won't be one, I won't have one, for I live in the life that is one that my father is me and we us one knowing each other intimately as intimacy has never been before shared like this and knowing oneship of I am now I am.

6. In love with you all. Amen. Go and new peace establish as never before having been FELT like this in My School **through my schoolers** who clean are and contrite of heart **lead many leaders**; to graves not, but out of them now and being one be one whole healed and well. Amen.
7. I love you all. Amen.
